SHOULDER ENTRY

Choice of Zip

Suit comes complete with your choice of either metal or nylon zip at no extra cost.

Latex Neck Seal

Hood recess for a warmer neck.

Drysuit Hose

Included

Auto-Dump

Or optional cuff dump

Combi-Cuffs

Soft, well sealing latex protected by a durable neoprene outer seal.

Neoprene Knee Pads

Gives a second layer of protection to vulnerable areas.

Neoprene Socks

Reduce air migration & when coupled with rock boots give a durable, comfortable and flexible fit.

Adjustable Braces

Keep the suit comfortable and positioned correctly at all times.

Leg Pocket

- Red tab for easy location.
- Small zipped, integrated secondary pocket.
- Internal D-Ring for secure attachment of accessories.

1.5mm Crushed Neoprene

Gives increased flexibility and comfort in a lightweight driesuit. Titanium alloy insulates & retains body temperature.

Sizing & Options Available On Back Page

SELF DONNING

1.5mm high-grade compressed neoprene

Tailored to give greater flexibility and comfort in a lightweight driesuit. 'Titanium Alpha' technology lining insulates & retains body temperature.

Inflation valve

Our double-bonded inflator seat gives a more reliable seal and makes changing the inflator much easier. A Universal inflator hose is included.

Combi-Cuffs

Soft, well-sealing latex protected by a durable Neoprene outer seal gives added protection and comfort.

Leg pocket

A 'suitably vast' velcro pocket with a red tab for easy location, D-Ring for secure attachment of accessories & a small zipped section in the flap. An optional additional pocket is available.

Neoprene socks

Reduce air migration & provide a durable, comfortable & flexible fit.

Contoured metal front-entry zip

Designed to provide easier access as well as a better, more streamlined fit.

Dump valve

Your choice of Auto or Cuff dump.

Nylon outer zip

Provides rugged protection for internal zip.

Telescopic torso

Allows a comfortable, streamlined fit while still allowing easy entry.

Neoprene knee pads

Give a second layer of protection to vulnerable areas.

OTB combat boot

Optional over-boot provides a high-grip, robust finish that helps protect against the wear and tear of a tough dive site.
